Let me introduce my family's passion for the past four generations: My Old Cameo collection contains 10 different collections:

1. Solid Gold Framed
2. Solid Silver Sterling & Coin Silver Framed
3. Gold filled • Gold Plated • Gold Washed Framed
4. Unmounted
5. Unmounted Cameos with Diamonds
6. Unmounted Modern Cameos
7. Unmounted Coral & Angel Skin Cameos
8. Unmounted Landscapes
9. Unmounted Mather Pearl & Lava
10. Conch Shells

Cameos date back more than 5,000 years, with each cameo reflecting the culture and style of its time period. They were also used as government assets in the many countries around the world, and are considered a reliable investment, as prices of antique, high quality cameos are predicted by many collectors to continue to rise. Most of the items represented in my collection are from the end of the 19th to the beginning of the 20th centuries. I also have some cameos from as early as the 18th century as well as a few modern pieces. The majority of my collection was produced in Italy and England, followed by pieces from the United States, France and Germany. The majority were carved from Carnelian and Sardonyx Sea Shell as well as Mother of Pearl Shell and corals. The collection also contains some hard stone cameos from agate, opal and bone. Using my background as a Graphic Artist and Art Historian, I established criteria which guided the creation of my cameo collection. This well organized, beautifully created catalog the collectors to keep track of this

*T*his catalog represents the Gold filled • Gold Plated • Gold Washed • Pinchbeck Framed cameos, from "The Antique Cameo Gallery Collection." This collection includes ONLY hand-carved or hand-painted cameos, which was collected by four generations. The major criteria for this collection included craftsmanship and esthetic's, as well as historical value. Some of this cameos wasn't checked for certainty metal contains, which mean that some of bezels can be made from solid gold. The collection also comes with this catalog highlighting the artistry and history of each piece, under supervision of Gemologist & Art History Professor from the famous collection of cameos Art Museum of Hermitage. According to cameo experts, the prices of collectible cameos have doubled every 6-7 years. The price of this collection is 3-4 times less than regular retail price, and the accompanying catalog will help you to keep track of this real valuable asset.
